

Fastener-Free Collar: \$35-\$40

BLD's Fastener-Free Collar is a limited-slip collar—similar to a martingale—that can be put on and taken off the dog with **no buckles or clips**.

Specifically designed to eliminate the need to fumble with leash clips and buckles to “leash-up” the dog, this collar simply slides over the dog’s head. The Fastener-Free Collar can be ordered separately, or built-in to a leash.

How it works: The collar slides “opens” to fit over the dog’s head, then the weight of the leash (or pressure on the leash)

will cause the collar loop to “close” to fit the dog’s neck.

This collar is sized to fit the dog’s neck snugly in the “closed” position; this ensures the collar will not choke the dog, yet is snug enough to not allow the dog to back out of the collar. The neck size is adjustable with our special Conway buckle. (Initial adjustment may require a helper.)

Select the style you need: The regular **separate** collar is made with an O-ring to attach any leash. The **built-in** option is made with a swivel to prevent tangling. You may request this collar be added to any of our leash designs, including the wheelchair leashes on the following pages. The collar will add extra length to the leash (EXCEPT for custom designs).

Optional Hand-Loop is available for people who need extra space for their fingers/hands to grasp the collar to “dress” the dog.

Measure your dog’s neck/collar as you would like the collar to fit when “closed” or snug. See sizes on next page.

Only use with a leash. Not recommended for dogs that are escape artists and/or runners if they slip the collar.

About Bold Lead Designs

Established in 2008, Bold Lead Designs is an innovative Colorado company that designs and crafts premium quality dog leads and accessories from only the best leather and materials. Located Aurora, Colorado, our workshop serves clients in all 50 US states and over 42 countries worldwide, so far.

Our products are unique and have been designed to be both people and dog friendly. Everything we make is crafted with quality and expertise that is rare and increasingly hard to find. Every custom item we offer is handmade to order so you get exactly what you need.

Katrina Boldry, Owner & Designer (pictured here with Kepler) founded BLD to address the gap between the dog equipment people needed and what was otherwise available. She is proud to provide custom made equipment solutions for people with disabilities. “A dog lead or a harness isn’t just a tether,” she says. “It’s a line of communication that can enhance the human-animal bond.”

At Bold Lead Designs, we don’t just make dog gear; we strive to offer solutions that enhance our clients’ quality of life. All of us at Bold Lead Designs are honored to have the opportunity to provide equipment that improves your independence. We are grateful for your support and thank you kindly for your interest in what we do. Let us know if we can be of assistance.
