

Twelve years ago I noticed something troubling; fully trained service dogs would shy away from uncomfortable harnesses; people with limited dexterity struggled to put leashes and harnesses on their dogs; others struggled to keep their service dog's leash from tangling up in the wheels of their wheelchair. I knew there had to be solutions to make life with dogs easier. I began developing products and options specifically designed to meet the unique needs and abilities of both the human and canine sides of a partnership.

If you or someone you know struggles with dog gear, we may have a solution for you. My team and I would love the opportunity to discuss your equipment needs, let us know how we can help.

It is truly an honor to provide only the best for those who have sacrificed so much. Thank you for your service. Thank your dog for theirs, too.

Katrina Boldry, Owner & Designer

Bold Lead Designs is an award-winning, woman-owned, inclusive small business that offers the best quality handcrafted dog gear available anywhere. Our products are proudly made in the USA, with most made-to-order in our own Colorado workshop.

BLD is proud to offer:

- Balance Assistance & Mobility Support Harnesses that allow a service dog to help their partner stand tall and walk again
- Disability-friendly harness, collar and leash options for those with limited dexterity or strength
- Multi-functional leashes that can be worn hands-free or used safely with a wheelchair
- A complete line of well-designed dog products for pet and working dogs
- Great Fit Guarantee & Lifetime Warranty

"For the veterans we serve at Freedom Service Dogs, having a service dog is a life-saving connection providing the support needed to get back to the family and community life they so desire. In order to partner with their new battle buddy, we've seen how customized training outfitted with the right gear helps our teams not only survive, but thrive."

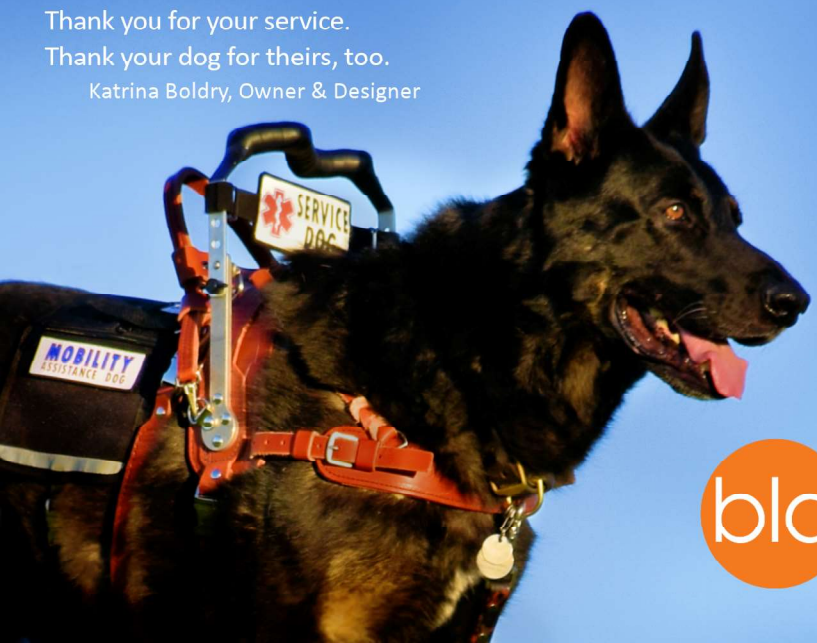

Amanda Vallo, Director of Client Services
Freedom Service Dogs of America

"As an Assistance Dogs International Member, Smoky Mountain Service Dogs strives to assist our veteran recipients in applying for and receiving the VA service dog enefits. We are honored to partner with Bold Lead Designs, one of the VA's approved service dog equipment vendors, who provide custom made harnesses for our mobility assistance service dogs. Their quality products and customer service are outstanding. BLD & SMSD share the passion of helping deserving veterans lead better lives through excellently trained service dogs and top-of-the-line equipment."
